

# Jet Professional

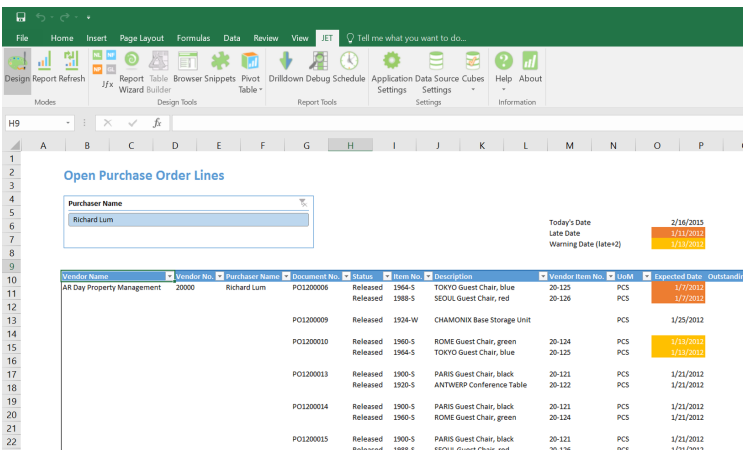

## Fast, Flexible Financial and Business Reporting Inside of Excel

Jet Professional allows you to get all the operational data you need, in the format that works for you. Any report – exactly the way you want it. No exporting, no copying and pasting and no programming.

Drag-and-drop design from the Jet Reports Browser to build engaging reports quickly.

Create powerful, stunning reports to communicate effectively.

### Eliminate errors

- ▶ Pull data directly into Excel
- ▶ No exporting, no copy and pasting
- ▶ Begin using and building reports immediately

### Cut reporting time and costs

- ▶ No hard-coding or programming skills required
- ▶ Reports seamlessly update with ERP upgrades

### Always have the answers

- ▶ Drill-down on the numbers directly from Excel
- ▶ Access reports from anywhere on the web

### Never second guess a report again

- ▶ Complete collaboration and publishing platform
- ▶ Feel confident it's the right data and workbook

### Get started immediately

- ▶ Built specifically for Microsoft Dynamics
- ▶ Extensive report library to use out of the box
- ▶ Same day download and installation

### Created for you

- ▶ Microsoft Dynamics NAV
- ▶ Microsoft Dynamics GP
- ▶ Microsoft Dynamics AX
- ▶ Connect to additional Microsoft SQL database and more...

"We complete reporting in about a quarter of the time with Jet Reports."

– Mike Ball, J.R. Simplot

Fast. Accurate. Anywhere.
