

Pricelist

Standard edition

- Receive one full year of free upgrades - including all major and minor releases

Description

- Software licenses entitle you to perpetual use and include one year of maintenance. Renewing maintenance is entirely optional.
- Our support includes following services:
 - Software updates
 - Support services - by email or forum

Beyond this initial period, you may renew your software maintenance for another period at our discounted renewal prices.

- The license will not be renewed when machine name or domain name changes. A new license will have to be ordered.
- It is possible to add more than one machine or domain in a license.
- The product is delivered electronically. After purchasing, you will receive an email in the next 24 hours with your registration information and license key. You can make your own backup copy of the downloaded software.
- Multiple sessions on one PC (like Terminal Server) only works with a Domain License
- You must use a valid email

Price list
